

SEAPOST[®] SEATING

Seapost[®] Helm Ergonomic Pilot Seating

The SeaPost Helm offers complete adjustability and ergonomic support for ultimate occupant comfort.

ERGONOMIC SIERRA SEAT

Integral serpentine springs help isolate shock. The contour molded seat cushion provides optimal comfort. Sierra seats are available in high or low back seat styles. The recline back option has infinite adjustment to 69°. Fixed back style also available. Adjustable seat tilt allows four positions with the back angle remaining constant. 9" (229 mm) swivel allows operator to move freely in the task area.

7" (178 MM) FORE AND AFT ADJUSTMENT

Simple automotive-type controls help move seat in 1/2" (13 mm) increments for correct placement in task area.

VARIABLE SEAT HEIGHT

Variable seat height gives the operator 6" (152 mm) of height adjust.

MARINE-GRADE FINISH

Metal components are pre-treated, E-coated and completed with a TGIC polyester powder coat finish for protection against corrosion in salt water environments. The H.O. Bostrom multi-finish system has passed an independent salt spray test for over 1000 hours.
